**Description**

The Tiger 6000 & 6100 Intercom Systems are heavy duty Marine Waterproof intercom/radio systems suited for daily use. This includes high performance, racing, military, law enforcement, homeland security and fire/rescue applications. These systems are modular and enable the use of a variety of components and accessories to create custom configurations and to operate to high performance and reliability standards.

The T-61530-30 Bluetooth Wireless behind the head style headset is one of several Bluetooth Wireless headsets offered by Tiger Performance configured for use with their mating transceivers and the T-6000 & 6001 Intercom systems. The T-61530-30 headset provides hands free wireless, voice activated and high noise cancelling communications.

This headset also provides high comfort for long durations. Included is a flex boom microphone, an adjustable over-lapping Velcro cloth headband, attractive and durable rubberized coated ear cups.

The T-61530-30 Bluetooth Wireless headset provides high quality and performance, comfort, durability and user friendly features. Also provided is a high level of hearing protection during a wide variety of high noise situations, while delivering years of trouble free use making it a first choice for boat crew members.
